MCI WorldCom v. Illinois Bell
Docket No. 01-0412
Exhibit 1.0
Attachment "MC-D"

February 28, 2001

Ms. Mindy Chapman
Director - LEC Interface Operations
MCI WorldCom
707 17th Street - Suite 4200
Denver, CO 80202

Dear Mindy:

Thank you for your January 19, 2001 follow up letter regarding MCI's Electronic Letters of Authorization (ELOA) process. We discussed and understand your clarifications for the ELOA process. The FCC rules are very specific as to how a preferred carrier freeze is lifted and SBC fully supports direct customer involvement in that process. Therefore, SBC has not changed its stance on your proposal.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jeff Ulm".

Jeff Ulm
Vice President
MCI WorldCom Account Team
